|-----------------------|---|
| Project Title: | Investigating the molecular mechanisms in controlling the aryl hydrocarbon recept |
| PI: | Chan, William K |
| Institution: | University Of The Pacific-Stockton |
| Grant Number: | R15ES023104 |

These search results have not been confirmed by NIEHS and are therefore, not official. They are to be used only for general information and to inform the public and grantees on the breadth of research funded by NIEHS.
